

Hand-Held Hygrometer

The Edgetech Instruments Model 625 humidity/ temperature hand-held hygrometer can display any of the following: RH and temperature, or dew point and temperature, or wet bulb and temperature. The unit includes the 625 hand held hygrometer, an integral humidity probe head, a handle and cable, a 9V battery, a travel case and a NIST traceable calibration certificate.

The Model 625 is an ideal instrument for indoor air quality (IAQ) and indoor environmental quality (IEQ) measurements of temperature and humidity. The 625 temp/RH probe can be used two ways: use it as an integrated unit by attaching the probe head to the instrument or connect both parts via a cable. The clear back-lit display can be switched between relative humidity, wet bulb, and dew point at the touch of a button.

Edgetech Instruments' services are performed in the USA at their modern, well-staffed, ISO/IEC 17025:2005 accredited, ISO 9001:2015 registered manufacturing facility. All recertifications and calibrations are traceable to NIST.

Features:

- Displays temperature, relative humidity, wet bulb temperature and dew point
- Max Min values
- Hold button freezes display readings
- Backlit display
- Auto-off
- Patented humidity sensor

Specifications

Sensor Type:

Capacitance Humidity Sensor

Measurement Range:

• Humidity: 0-100% RH

• Temperature: -14°F to 140°F (-25.5°C to 60°C)

Accuracy:

%RH: ±2.5% RH (5 to 95%RH)
Temperature: ±0.9°F (± 0.5°C)

Toll Free: 800-276-3729 Ph: 978-310-7760 Fax: 978-310-7767

The Model 625

Operating Temperature:

• -4°F to 122°F (-20°C to 50°C)

Storage Temperature:

• -40°F to 185°F (-40°C to 85°C)

Battery Type:

9V

Battery Life:

70 hours

Weight:

Less than 1lb. (341g)

Material Housing:

ABS plastic (Housing warranted 2 years)

Dimensions:

 7 x 2.5 x 1.6 inches (177.8mm x 63.5mm x 40.6mm)

Rev. v2
