Edgetech Instruments Announces New Sales Representative in Western Canada

Edgetech Instruments Inc. is pleased to announce signing on Procon Systems, our new Manufacturers Representative/Distributor, covering western Canada. Procon will be handling Edgetech Instruments' dewpoint, humidity, and oxygen analyzers, as well as our 17025:2005 accredited calibration services.

PROCON SYSTEMS represents some of the world's most recognized names in hazardous gas detection and measurement and control. They have been meeting the demanding needs of customers around the globe. When your life or business depends on precise measurement and control, or accurate detection of potentially hazardous workplace atmospheres, you can rely on the precision instrumentation and expertise of PROCON SYSTEMS.

The PROCON SYSTEMS provide its customers with products and services that utilize state-of-the-art technology and are of the highest quality, usefulness and value. They are committed to providing its customers with unsurpassed products and technical support.

PROCON SYSTEMS is a distributor of sophisticated electronic instrumentation. This equipment is used by the process industries for analysis, detection, measurement, and control. PROCON was incorporated in December 1992 and formally began operations on June 1, 1993.
